

# Secret Space Program Vessels and Alien Ships

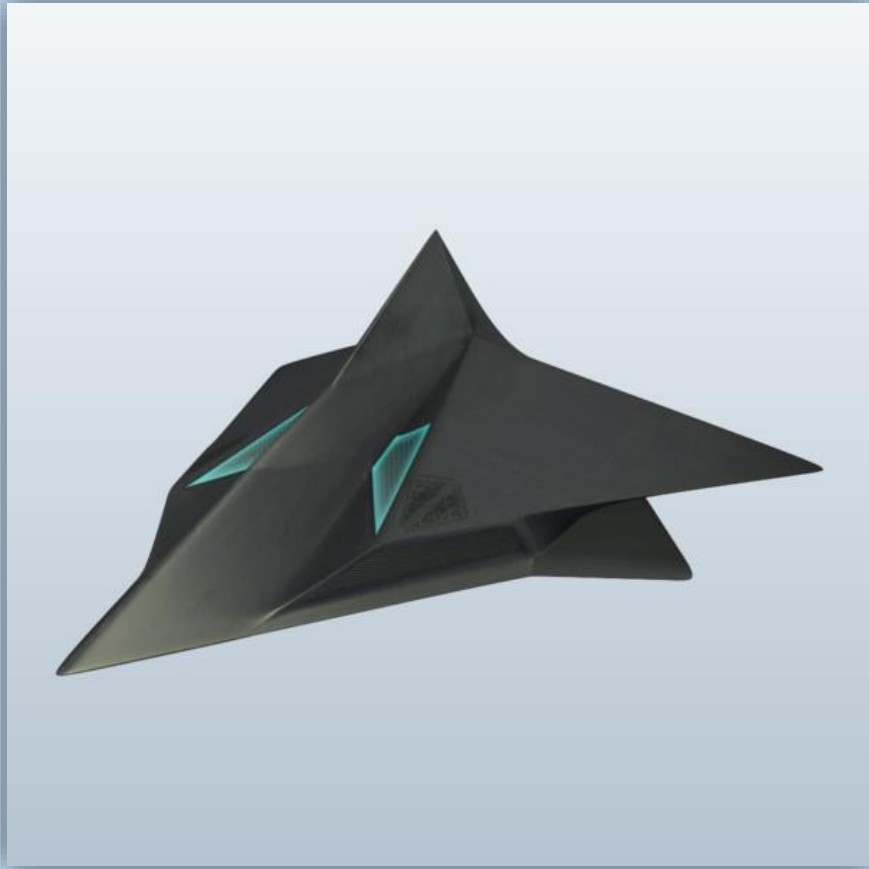

the circular hubs on the sides of the ship are like transistor modules allowing for beyond the speed of light star travel instantly

Color of ship is silver, has coils for transwarp drives, coils are made out of hyper fusion materials

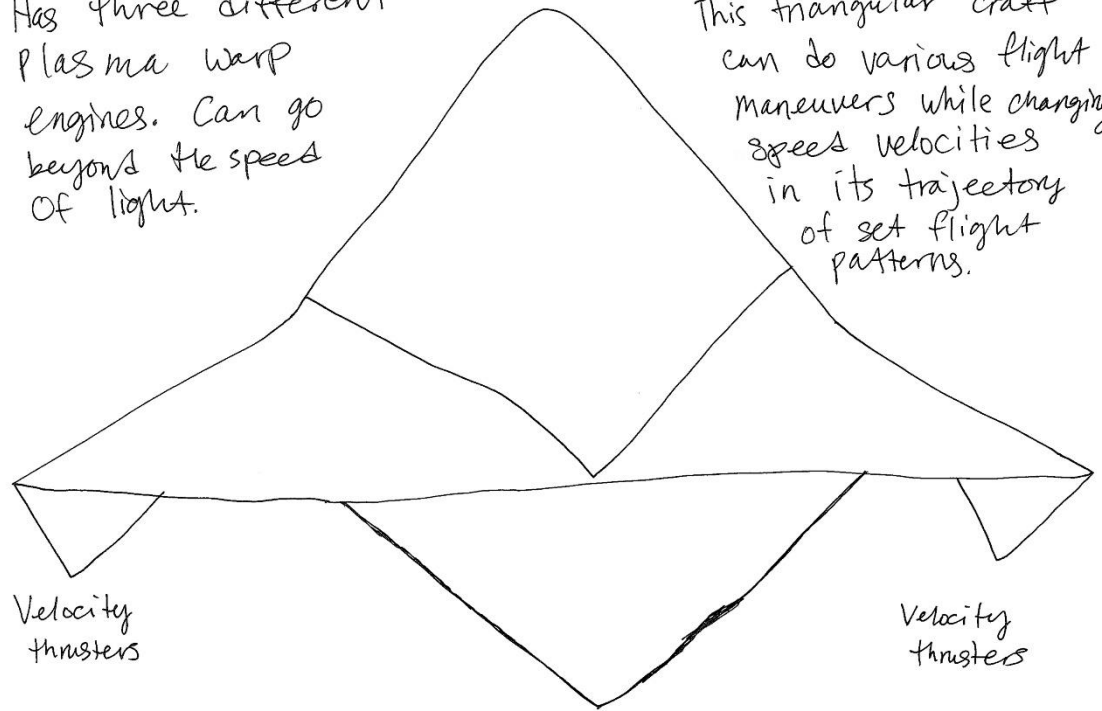

The circular hubs have buffer zones in order to cloak the ship

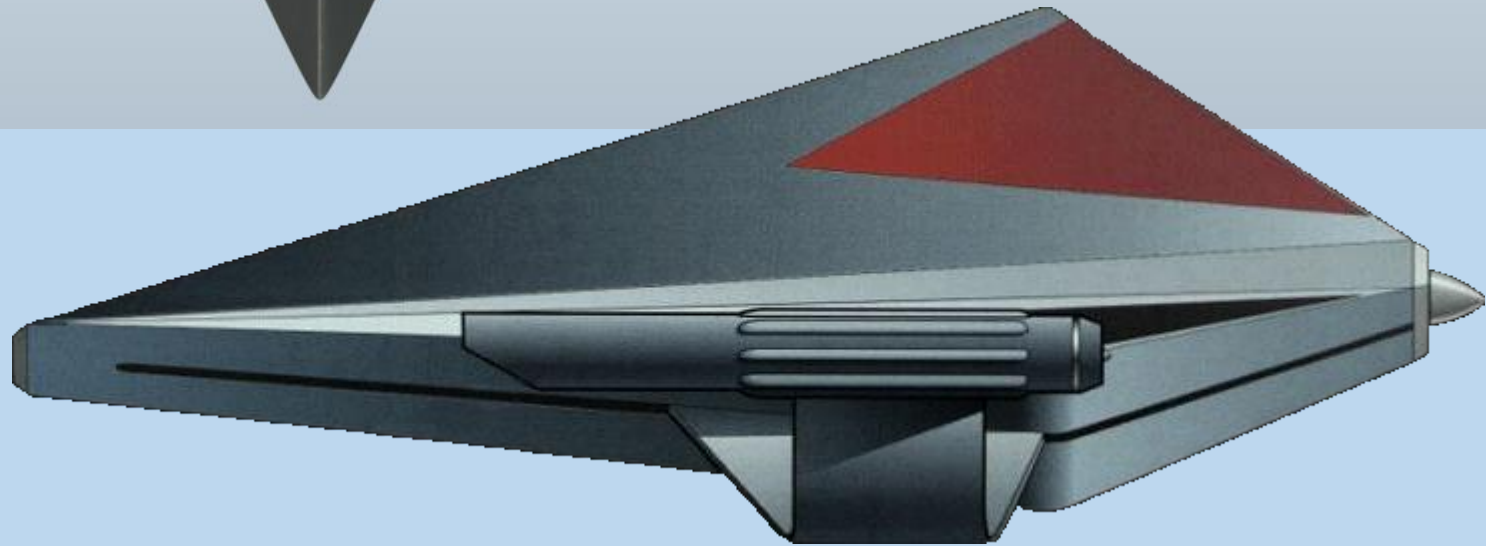

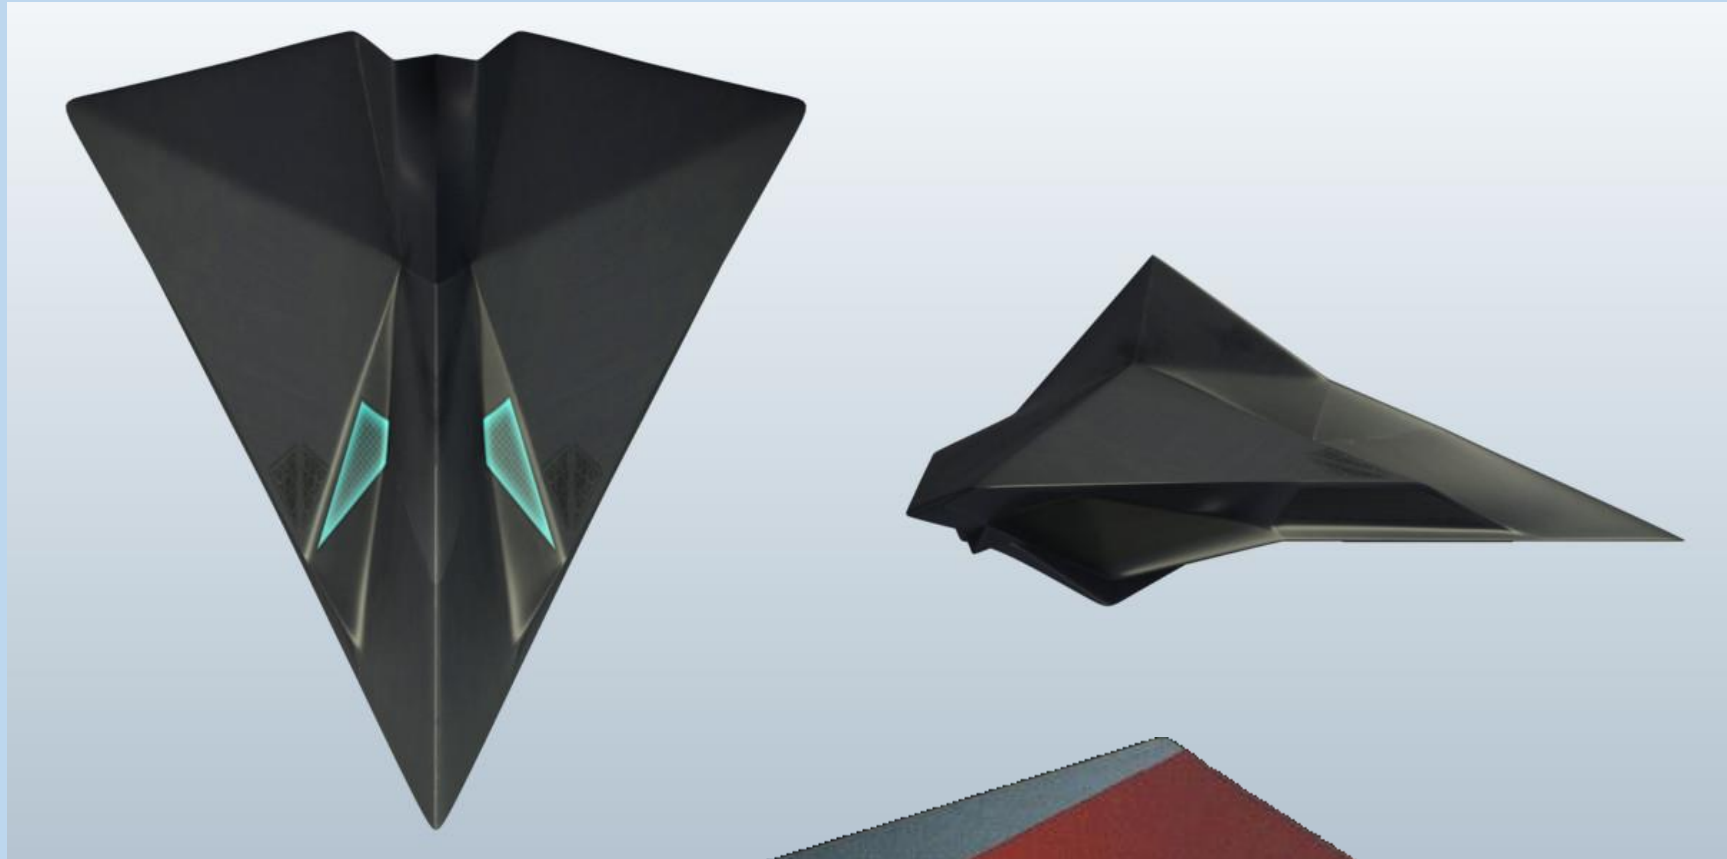

Ship came out of a trans-dimensional hub

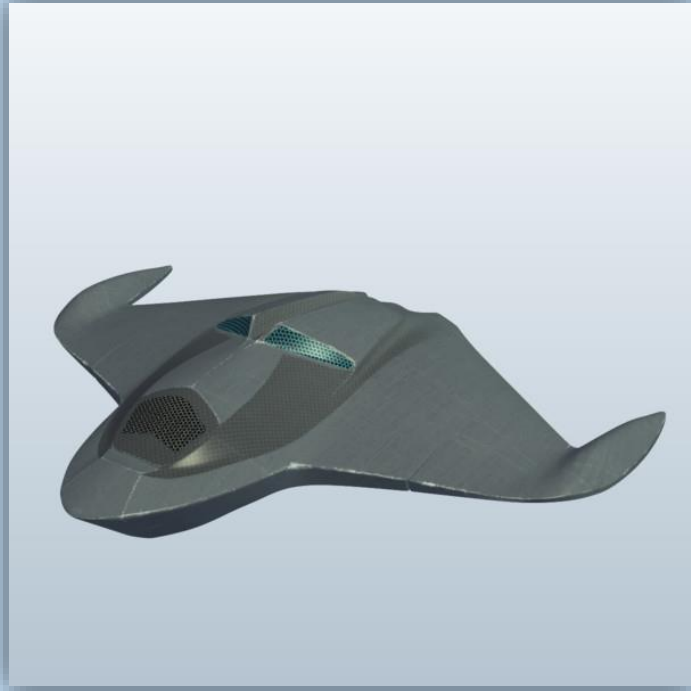

Has three different  
Plasma warp  
engines. Can go  
beyond the speed  
of light.

This triangular craft  
can do various flight  
maneuvers while changing  
speed velocities  
in its trajectory  
of set flight  
patterns.

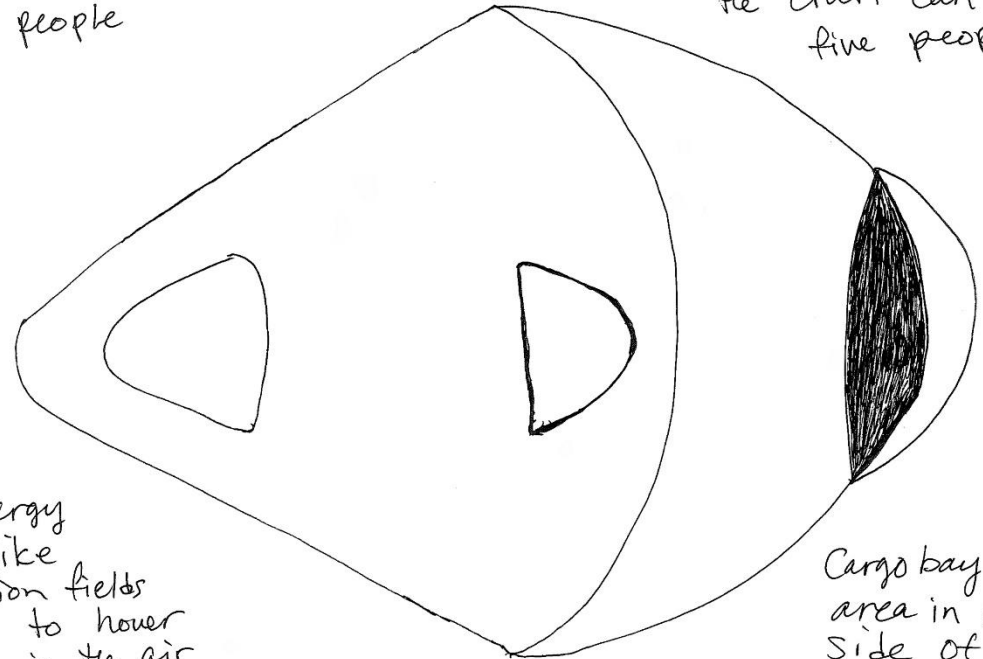

The front part of the  
craft can seat four  
people

In the back side of  
the craft can seat  
five people

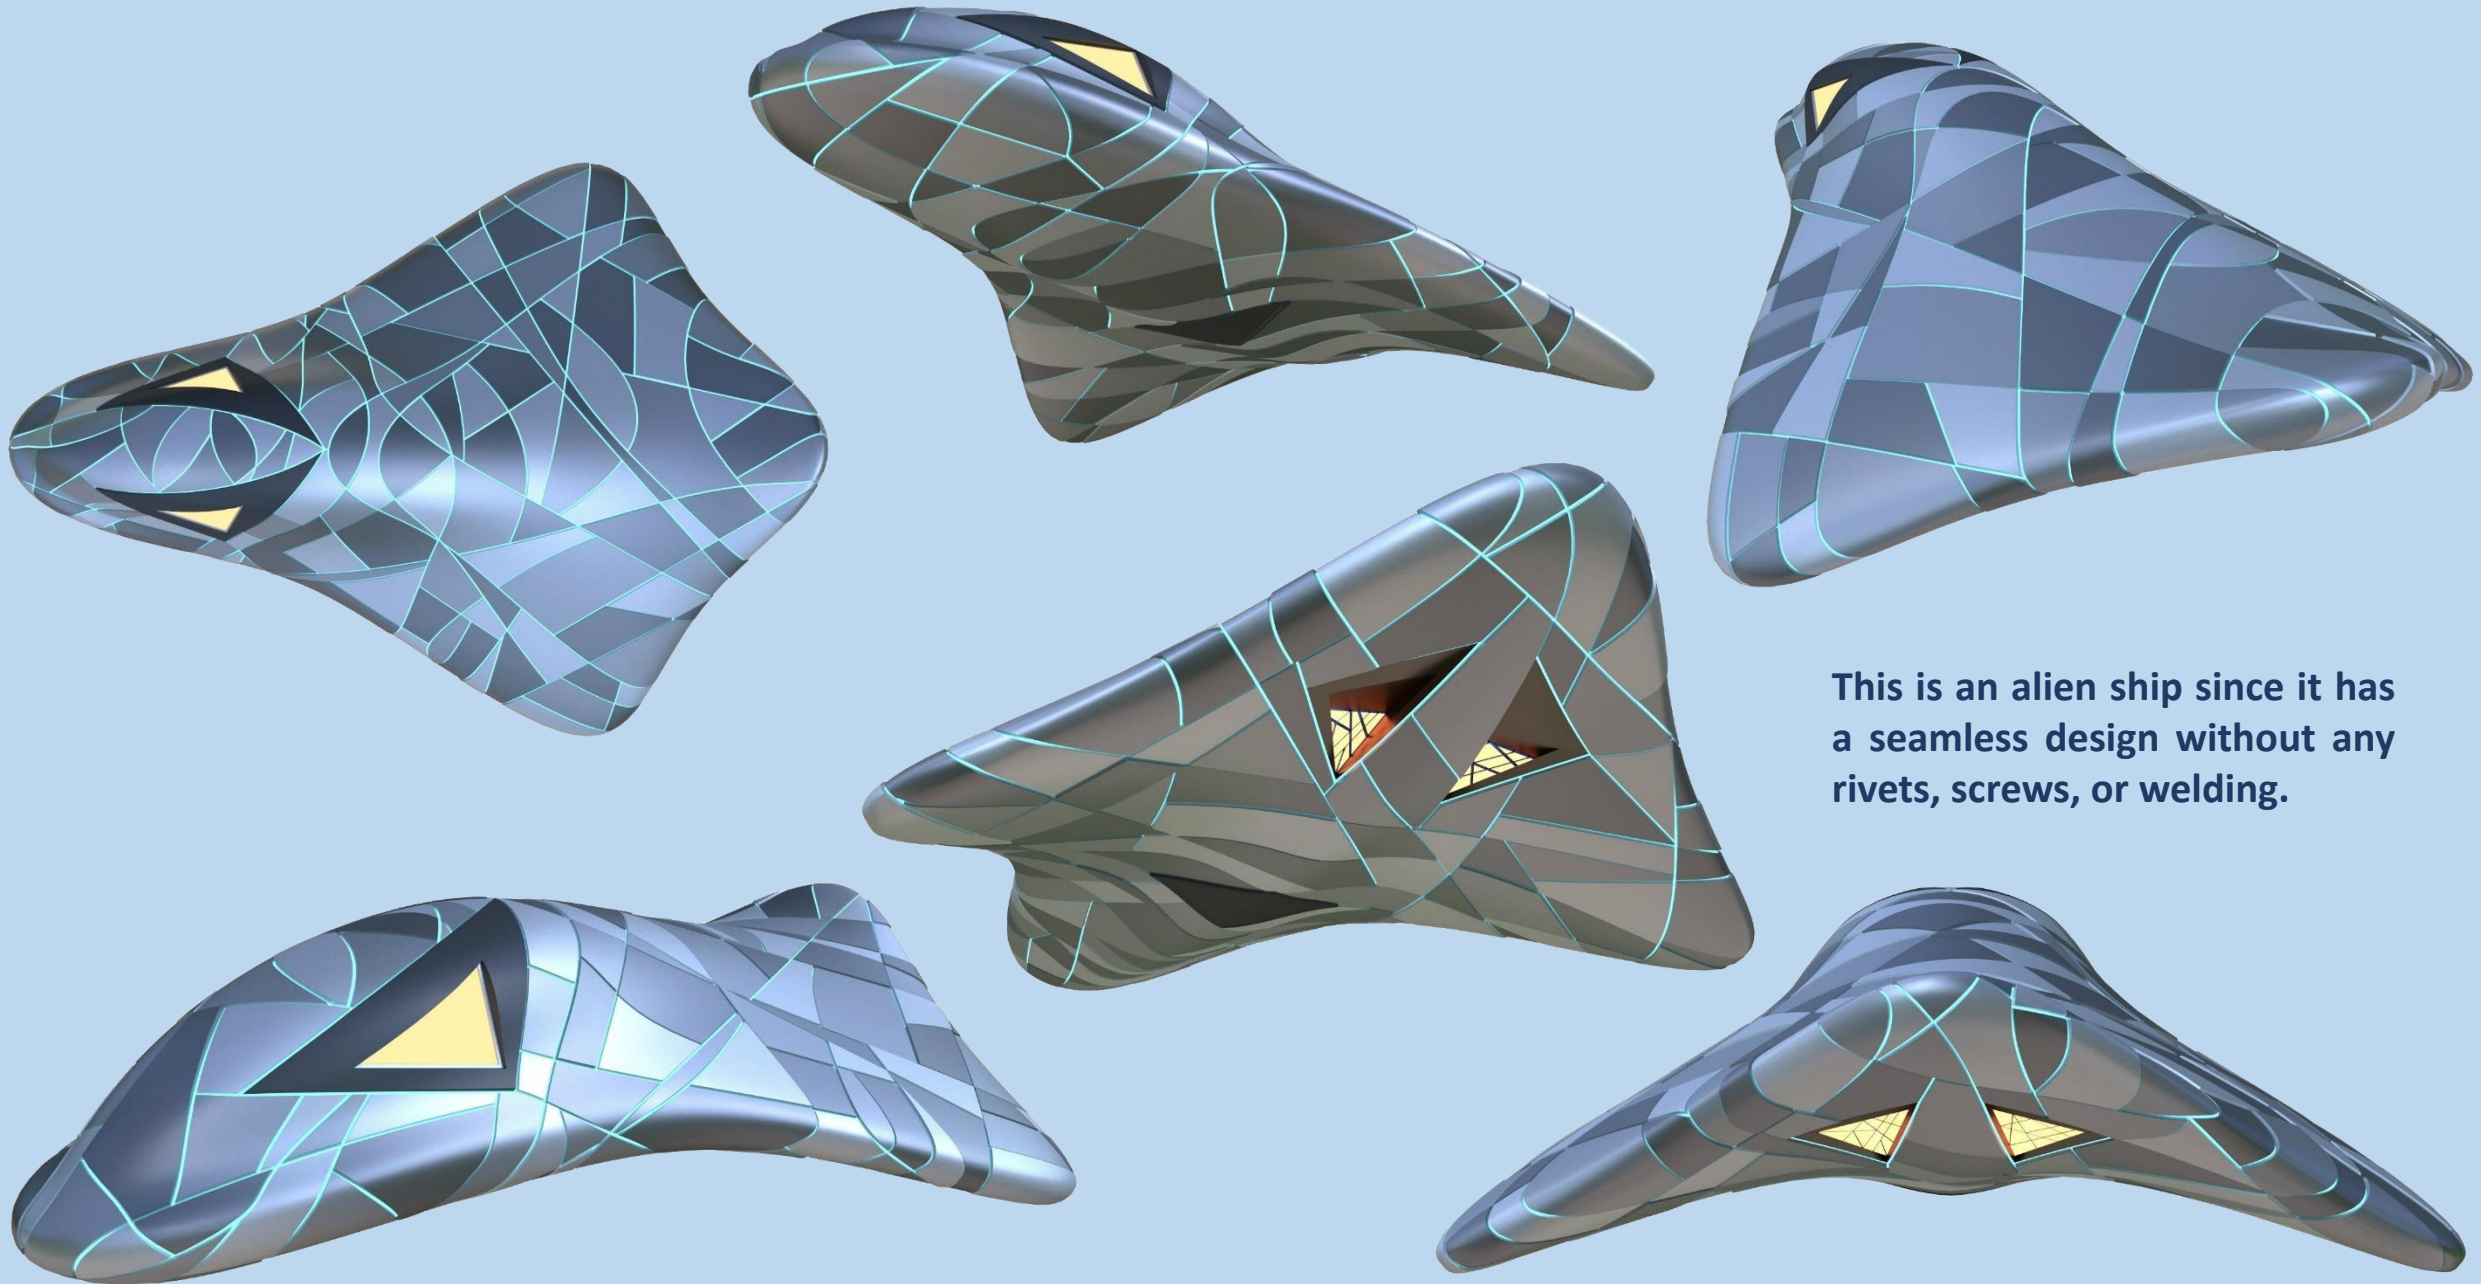

Emits energy  
streams like  
three torsion fields  
in order to hover  
and float in the air

Triangular Craft  
has front window  
and back window

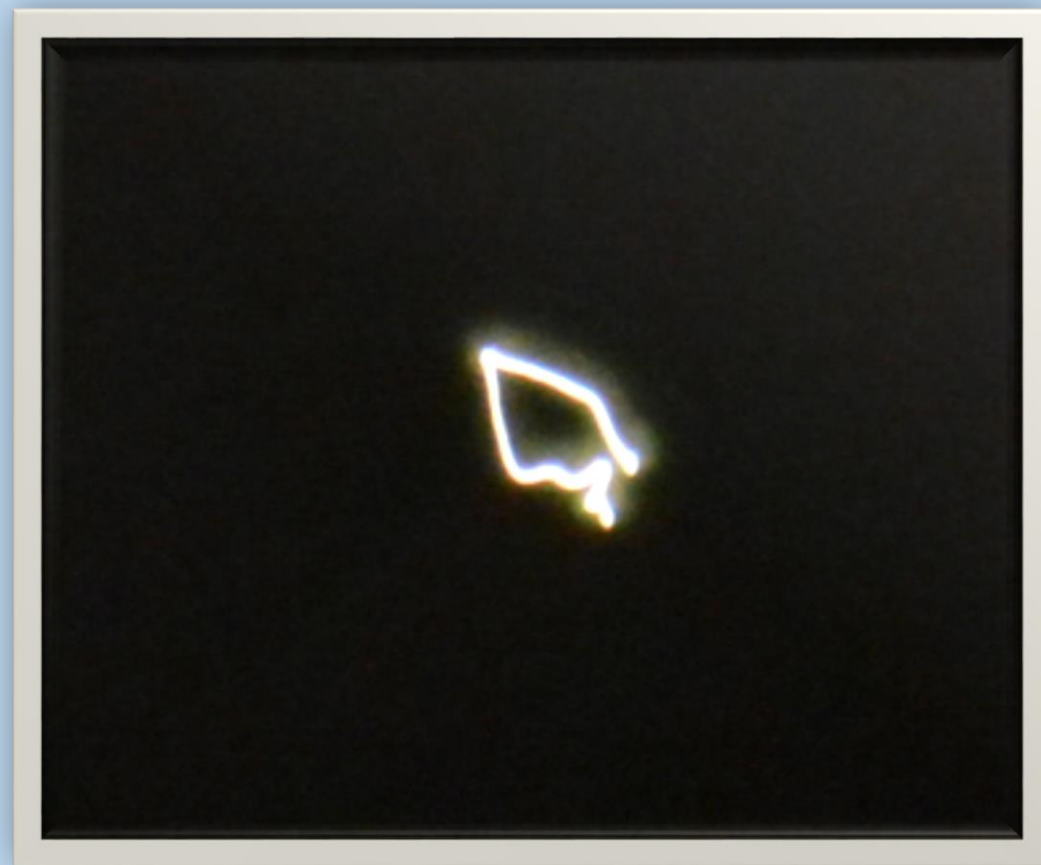

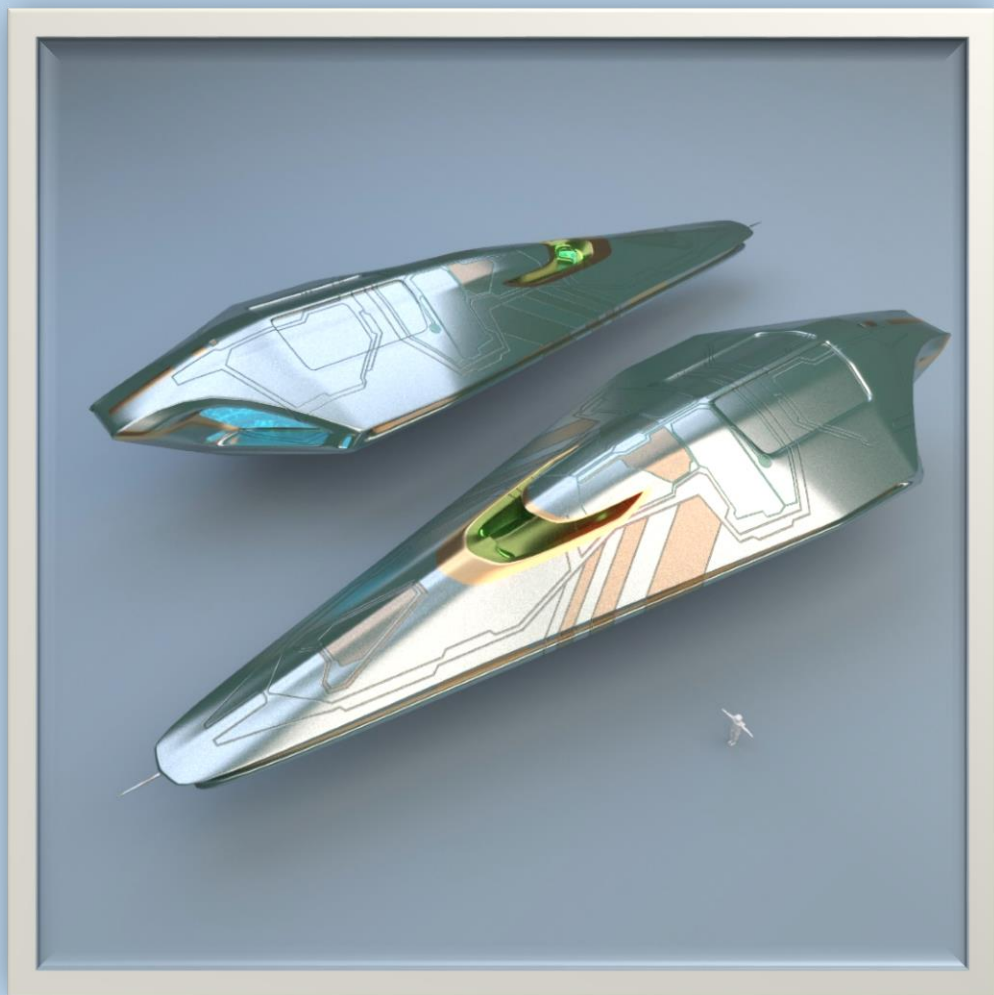

Fusion Energy  
propulsion system  
warp drives

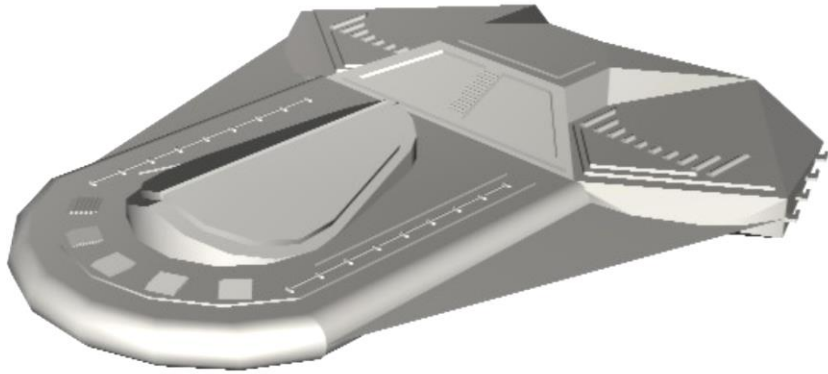

Cargo bay  
area in back  
side of the  
craft

**This is an alien ship since it has a seamless design without any rivets, screws, or welding.**
